Hi Rob,

I have not heard from John. I am using his new email address and I haven't gotten them back as undeliverable so I think he is getting them.

I planned to call John to see if he wanted to attend just to make sure but haven't had a chance yet.

Sounds good. Thanks Tom for arranging.

Have you heard from John Fenton?

Ok,
If it is still ok with everyone, let's meet Sept. 13 in Cheyenne. We could try for 10:00 which should give us time to get the first one going prior to lunch. The remaining 6-9 sites we have data for should be simpler to run in the afternoon as many of the model inputs should be the same or change only slightly so we will not need as much discussion. We will try to run through as many as we can.

Vickie, Kathy always handled getting us a conf. room at the DEQ office in Cheyenne, is that something you can set up for us?

Thanks,

Sorry, mistake on my dates. Either the afternoon of the 12th or the 13th will work for everyone right now. If those dates don't work we will have to try later in the month. I want to have these complete by the Oct. 10 Pavillion Public meeting.

Hi Vickie,
We are planning a meeting in Cheyenne for the pit workgroup to run some EPA risk models for the soil analytical data at several

of the former pit locations. We are hoping to run these with the entire group so that we all understand and have discussion on the risk model inputs, site data, etc. It should be easier for everyone to have an understanding of the risk model if we get together while they are run then have to review them after the fact with questions arising of why one input value was selected over another, etc.

We were hoping to get together sometime the week of Sept. 10, right now I have heard back from everyone except John Fenton and either Sept. 13 or 14 is the best day. Vickie, will one of these days work for you?

Thanks,

To be clear, my involvement may be temporary and will likely just be filling in until a permanent replacement is found. Look forward to seeing/meeting you all.

All: Vickie Meredith will be taking my place on the Pavillion Pit Working Group. I have cc'd her on this email so that you have her email contact information. Please include her in scheduling the group meeting in Cheyenne the week of September 10 and all future emails. It has been a pleasure working with all of you on this project and I wish you continued success.

Sincerely - Kathy
